### BINSON'S HOME HEALTH CARE CENTERS INCONTINENCE MEDICAL SUPPLY PROGRAM

Monday through Friday from 8:00 A.M. to 5:30 P.M. EST

- **Toll Free Number 1-888-217-9610**
  - TTY Relay Service at 711 For Hearing Impaired
- 24-HOUR EMERGENCY SERVICE AVAILABLE

Welcome to Binson's State of Indiana Incontinence and Medical Supply Program. We are committed to providing you with quality incontinence products. All products will need to be ordered by your physician. We also offer an in-house nursing staff for telephone consultation and initial nursing assessments.

Beginning February 1, 2008, Binson's began providing bowel/bladder incontinence supplies by FedEx, United Parcel Service (UPS) or United States Postal Service (USPS) through a home delivery contract with Indiana Medicaid. Your products will be shipped to you monthly unless you report changes.

Our team of customer service representatives is available to answer your questions and assist with your product needs. If you have questions regarding your supplies or did not receive your supplies, please call us at **1-888-217-9610**.

PRODUCT SUPPLIED:        **DISPOSABLE DIAPERS/BRIEFS**

#### **DESCRIPTION:**

Available in sizes for children according to weight - 12 pounds to 50 pounds.

Larger sizes are determined by waist or hip measurement.

Youth = 15" – 22", Adult small = 20" – 32", Adult medium = 32" – 44", Adult large = 45" – 56", Adult extra- large = 56" – 64", and Adult XX-large = 63" – 68".

Re-fastenable tabs.

One piece garment filled with absorbent material to keep wetness away from skin.

#### **Product Use:**

For use by Beneficiaries with loss of control (incontinence) of bladder (wetting) or bowels (solid waste).

- Correct fit is important. Measure the hips or waist, and note whichever one is larger. Measure hipbone to hipbone and over the stomach. After obtaining measurement, double it and add 2 inches. Example- Hipbone to Hipbone = 22",  $22" \times 2 = 44" + 2" = 46"$ . 46" would be the size of a large adult diaper.
- Diaper/brief positioning; the top tabs should be aligned with the hip bone.
- Fold the wings of the front panel back and turn the leg cuffs outward. Pull the panel up snugly between legs until the leg elastic is resting in the crease of the groin area.
- Always fasten the bottom tabs first at an upward angle. This will form a secure seal around the buttocks. Fasten the top tabs at a downward angle.

#### **Skin care:**

- View the skin around the diaper area daily. Report any redness, rash or breaks in the skin to your physician.
- Clean the skin in the diaper area daily and after soiling. Use warm water with mild cleanser.
- Pat the skin dry or air dry before new diaper/brief application.
- Use moisturizers on dry skin.
